## Mouse Double Click Action

```
1  //
2  const {test, expect}= require('@playwright/test')
3
4  test ('Mouse Double Click', async ({page})⇒{
5
6      await page.goto('https://testautomationpractice.blogspot.com/')
7
8      const btnCopy=await page.locator('//button[normalize-space()="Copy Text"]')
9
10     //double click
11     //get the locator of area where to double click and use dblclick() method.
12     await btnCopy.dblclick()
13
14     const f2=await page.locator('#field2')
15
16     await expect(f2).toHaveValue('Hello World!')
17
18     await page.waitForTimeout(5000)
19
20 })
```
